Aims and Scope

Erciyes Medical Journal is an independent, unbiased, International, double-blind peer-reviewed, open access journal published in English. The journal, which has been in continuous publication since 1978, is published four times per year in March, June, September and December.

The journal accepts clinical and experimental research articles in different fields of medicine, original case reports, letters to the editor and invited reviews for publication. Research articles and case reports on regionally frequent and specific medical topics are prioritized. Manuscripts on national and international scientific meetings and symposiums and manuscripts sharing scientific correspondence and scientific knowledge between authors and their readers are also published.

Erciyes Medical Journal is funded by the Erciyes University Medical Faculty. The content of the journal, including full text articles, is available online at www.erciyesmedj.com free of charge. Authors are not required to pay for evaluation and publication of their manuscripts; however a payment is required for publication of coloured images within a manuscript.

At all the stages from submission to publication, the Erciyes Medical Journal acts in accordance with the standards outlined by the International Committee of Medical Journal Editors (ICMJE), World Association of Medical Editors (WAME), Council of Science Editors (CSE), European Association of Science Editors (EASE) and Committee on Publication Ethics (COPE). The Erciyes Medical Journal is indexed in EMBASE, Scopus, CINAHL, EBSCO, DOAJ, ProQuest, Index Copernicus, CAS, CAB Abstracts, Global Health, Tübitak/Ulakbim, Turkish Medical Database and Türkiye Citation Index databases.

Instructions for authors are available online at www.erciyesmedj.com and in the printed version of the journal. Statements or opinions expressed in the manuscripts published in Erciyes Medical Journal reflect the views of the author(s); the editors, editorial board and publisher disclaim any responsibility or liability for such materials. Erciyes Medical Journal is printed on acid-free paper.

Information for the Authors

Erciyes Medical Journal is published by Erciyes University Medical Faculty which implements the double-blind peer review process. The journal publishes research articles on clinical and experimental subjects from all fields of medicine, review articles on up-to-date topics, letters to the editor, manuscripts on historical progress of general medicine and diseases and content on scientific research and ethical problems. Only online article submissions are accepted (www.erciyesmedj.com).

The basic qualities expected from a manuscript during evaluation processes for the acceptance to publication are; the originality and the contribution to the international scientific literature and to the continuing medical education.

Responsibility for the data, opinions and statements of published articles belong to the author(s), and the Editors, Editorial Board, Publisher and Erciyes University Medical Faculty disclaim any responsibility on these issues.

It is essential for a submitted article to be non-previous published in any other printed or electronic media. Submission of previous reviewer reports is mandatory for articles which have previously been submitted for publication in another journal and rejected. This practice will shorten the evaluation process of the article. If a submitted manuscript has previously been presented at any meeting, the name, date and city in which the meeting was held should be stated or it should be mentioned whether a submitted manuscript is preliminary study or part of a thesis.

The author(s) should transfer all their local and international copyrights of their submitted article to Erciyes University Medical Faculty and the Copyright Transfer Form should be signed by all author contribution form. The original copy of the form should be posted to the editorial office of the journal. Author(s) are considered to accept that they cannot publish their article in any other language or media and cannot authorize a third party to do so without the written permission of the editorial office.

Any form of text, image or reference used within the article is the responsibility of the author(s). It is their responsibility to acquire local or international copyright permissions of tables, figures and other images used in their manuscript. The author will be responsible for any losses that the journal may incur as a result of these issues.

Rejected manuscripts will not be returned to the author.

The most up-to-date version of the guide in question is available at www.icmje.org. Manuscripts should be written in “MS Word” program in the “Times New Roman 11 Points”, double-spaced and justified. Page format should be A4 size; with spaces of “2.5 cm” on the right, the left, the top and the bottom.

CONSORT guidelines for randomized studies, STROBE guidelines for observational studies, STARD for diagnostic studies, PRISMA for systematic reviews and meta-analysis, ARRIVE for animal experimental studies and TRED for non-randomized behavioral and public health intervention studies, should be taken into consideration.

In order to clarify the subjects of scientific contributions, responsibilities and conflicts of interest on the article, all authors should sign and send the Authorship Contribution Form and ICMJE Form for Disclosure of Potential Conflicts of Interest to the Editorial Office. Practices of the journal on this subject are in accordance with the rules of the International Committee of Medical Journal Editors (ICMJE) and Council of Science Editors (CSE).

The Editorial Office inspects all submitted manuscripts concerning plagiarism and duplication. If an ethical problem is detected, the editorial office will act according to the Committee on Publication Ethics (COPE) guidelines.

The authors should acknowledge and provide information on grants or other financial interests or affiliations with institutions, organizations, or companies relevant to the manuscript.

An Ethics Committee Report, prepared in accordance with “Guide for the Care and Use of Laboratory Animals” of the Helsinki Declaration prepared by the World Medical Association (WMA), is required for experimental, clinical and drug studies and some case reports. The Editorial Office may request the report of the ethics committee or an equivalent official document from the authors if found necessary. Manuscripts reporting results of experimental studies practiced on volunteers and patients should include a patient and volunteer consent statement after explaining the procedure(s) thoroughly. For animal experimental studies, measures taken to reduce pain and discomfort should be clearly stated.

Manuscripts submitted for publication should be written in English. Manuscripts submitted in other languages will be rejected.

Editors inspect whether a submitted manuscript is prepared in accordance with the journal’s manuscript preparation rules before assigning the manuscript to reviewers. Manuscripts which are not written in accordance with the journal’s manuscript preparation rules will not be evaluated. 21 days are allocated for reviewer evaluations and, if any corrections are required, 28 days are allocated for the author to implement the requested corrections.
All manuscripts will pass through a pre-evaluation process by the Editors and Associate Editors in the first stage of submission. Subsequently, manuscripts are assigned to at least two reviewers for evaluation. Reviewers are selected among external and independent specialists who also have publications in international literature in the same field. Research articles, systematic review articles and meta-analysis manuscripts will be checked by the statistical editor in addition to the assigned reviewers. All manuscripts are also checked for English grammatical and manuscript preparation rules.

Any retraction requests of manuscripts close to the final decision, without reasonable explanation, will be rejected. All authors of a manuscript accepted for publication should consent that editors could make corrections without changing the basic meaning of the text of the manuscript written.

The written files should be prepared in the Microsoft Word program. The Online Paper Acceptance and Evaluation System will be transferred to the authors at all stages and sending of the paper will be accomplished as rapidly and safely as possible. The paper files should be structured according to their types as follows:

**Research article**

The manuscript title should be stated first. A structured abstract of the article including Objective, Materials and Methods, Results and Conclusion sub-headings should be given below the title. Maximum total word count of the abstracts should be 250 (Turkish abstract is not mandatory for authors submitting outside Turkey). At least 3, at most 6, keywords concordant with MeSH vocabulary terms prepared by the National Library of Medicine (NLM) should be included in each research article. Title, abstract and keywords should be written in both Turkish and English languages (Turkish is not mandatory for authors submitting from outside Turkey). The main text should include Introduction, Materials and Methods (with sub-headings), Results, Discussion, Study Limitations, Conclusion, References, Tables-Figures-Images sections and it should not exceed 5000 words. A maximum of 50 references is sufficient regarding acceptability.

Statistical analysis should be performed in accordance with guidelines on reporting statistics in Medical journals (Altman DG, Gore SM, Gardner MJ, Poole SJ. Statistical guidelines for contributors to medical journals. Br Med J 1983; 76376: 1489–93.). The software used for statistical analysis should be described. When parametric tests are used for comparison of continuous variables, they should be presented as Mean±Standard Deviation or Mean±Standard Error, while for nonparametric tests, data should be presented as Median and range (Minimum–Maximum) or Median and interquartile range (25th and 75th percentiles). Whenever complex analyses are used, the relative risk (RR, relative risk) odds (OR, odds ratio) and hazard ratios values (HR, hazard ratio) should be supported by providing confidence intervals and p values.

**Review article**

Review articles are accepted by invitation only. Manuscripts prepared by experts who have extensive knowledge in the field and whose knowledge has been cited to the literature as publications and citations will be evaluated. Review articles should be prepared concerning the latest clinical progress on a piece of information or a subject in a format which explains, discusses, evaluates and guides future studies. Review articles should include a title and an unstructured abstract of a maximum 250 words (Turkish abstract is not mandatory for authors submitting outside Turkey). At least 3, at most 6, keywords concordant with MeSH vocabulary terms prepared by the National Library of Medicine (NLM) should be included. Title, abstract and keywords should be written in both Turkish and English languages (Turkish is not mandatory for authors submitting outside Turkey). With regard to the content of the manuscript, sub-headed main-text, references and tables-figures-images should be included. Total word count of a review article should not exceed 5000.

**Case Report**

Our journal reserves a limited space for case reports. Only interesting and informative case reports which are about rare diseases which are difficult to diagnose and treat or which suggest a new method, or include new information which cannot be found in the literature, will be published. A title and an unstructured abstract of maximum 200 words should be included in each case report. At least 3, at most 6, keywords concordant with MeSH vocabulary terms prepared by the National Library of Medicine (NLM) should be included. Title, abstract and keywords should be written in both Turkish and English languages (Turkish abstract is not mandatory for authors submitting outside Turkey). The main text should include Introduction, Case Report, Discussion, Conclusion, References and Tables-Figures-Images sections. Total word count should not exceed 1500. Case reports should not include more than 10 references.

**Editorial Comment**

Editorial Comments should include short discussion and presentation of a research article published in the journal. Editorials are written by the distinguished authors in the field who is invited by the editors. Editorials should be written in English with a maximum of 1500 words and 25 references.

**Letter to the Editor**

This type of manuscript discusses the importance, missing parts or an overlooked structure of a previously published article. Authors can also submit their comments to the editor on a subject which may be in the reader's field of interest especially on educational cases, in the Letter to the Editor form. Maximum reference number is 10 and no titles of sub-headings are required. A Letter to the Editor should not exceed 1000 words. Volume, year, Issue, page numbers, title and author names of the article mentioned in a Letter to the Editor should be stated clearly.

**Scientific Letter**

Manuscripts with prior notification characteristics announcing new, clinically important scientific developments or information are accepted as Scientific Letters. Scientific Letters should not include sub-headings and should...
not exceed 1500 words. The number of references should be limited to 15 and number of tables or figures should be limited to 2.

**Education:** Results of recently concluded research and conclusive information used in academic education and clinical practice are presented in detail in this type of manuscripts. Title should be given in both Turkish and English languages (Turkish is not mandatory for authors submitting outside Turkey). With regard to the content of the manuscript, sub-headed main-text, references and tables-figures-images should be included. Total word count should not exceed 5000 and total reference number should be limited to 50.

Author names, institution details and contact details, should not be included in the submitted document. These details should be filled in the relevant sections in the online manuscript submission system. All tables, figures, graphs and images should be visibly numbered within the article text and patient, physicians and institution names should be blinded. For microscopic figures, in addition to explanatory information, zoom levels and coloring techniques should also be stated. Line drawings should be done in a professional manner and, in pictures showing a patient's face, patient name and eyes should be covered so that the identity of the patient is not revealed. All images should be in high resolution at minimum 300 dpi. Lines with sufficient thickness should be used in graphs, thus preventing possible losses if resizing is necessary. Widths of images should be either 9 or 18 cm. Line drawings prepared by professionals are more appropriate. Gray tones should not be used in figures. Used abbreviations should be explained below each image in alphabetical order. Roman numerals should not be used in table and figure headings and sub-texts. Roman numerals should be avoided while numbering the Tables and Figures, or while identifying the tables in the text. Decimal fractions in the text, tables and figures should be separated by decimals points in sections in English and commas in sections in Turkish. In particular, tables should be explanatory for the text and should not duplicate the data given in the text.

References should be numbered in the order of citation in the main text (Vancouver style). Only published studies or studies accepted for publication should be cited. Abbreviations of journal titles should be done in accordance with journal abbreviations used in Index Medicus. For publications with 6 or fewer authors, a list of all authors is required, for publications with 7 or more authors, the first 6 authors should be listed, followed by "et al". Reference styles and punctuations should be in accordance with the examples below.

The Editorial Office or the Publisher can be contacted for further questions using the contact details below.

## Contents

### Review
139  
Exome Sequencing for The Identification of Mendelian Disease Genes  
Gülsüm Kayman Kürekçi, Pervin Diçer; Ankara, Turkey

### Original Investigations
144  
Evaluation of Satisfaction Levels of Patients Undergoing High Tibial Osteotomy  
Sarper Gürsu, Timur Yıldırım, Yağan Çamurcu, Hakan Sofu, Bilal Demir, Ahmet Issin, Vedat Şahin; İstanbul, Amasya, Erzincan, Turkey

148  
Clinical Evaluation of Outcomes of Penile Prosthesis Implantation and Partner Satisfaction  
Adem Altunkol, Hakan Erçil, Nevzat Can Şener, Sabahattin Ceber, Ediz Vuruşkan, Ferhat Ortoğlu, Halil Çiftçi; Adana, Şanlıurfa, Turkey

152  
Retrospective Evaluation of Aerobic Blood Culture Contamination Rates in a Tertiary Care Hospital in One Year  
Mehmet Burak Selek, Bayhan Bektöre, Tuğba Kula Atik, Orhan Baylan, Mustafa Özyurt; İstanbul, Turkey

156  
Evaluation of c-erbB-2 Expression, Amplification, and Prognostic Value in Primary and Metastatic Prostate Adenocarcinomas  
Arbil Açıkalın, Şeyda Erdoğan, Emine Bağır, Volkan Izol, Zühtü Tansu, Gülşah Şeydaoğlu, Suzan Zorludemir, Gülfiliz Gönlüşen; Adana, Turkey

161  
The Impact of the Use of Neuronavigation Together with Intraoperative Ultrasonography In Minimally Invasive Intracranial Cavernous Hemangioma Surgery  
A. Fetah Tümtürk, Ahmet Küçük, Halil Ulutabanca, Ahmet Menkü, I. Şamil Gergin, Şükru Oral; Kayseri, Turkey

166  
The Frequency of Demodex spp in Depression Patients  
Mehmet Hanifi Kokaçya, Erhan Yengil, Özlem Aycan Kaya, Musa Şahpolat; Hatay, Turkey

### Case Reports
170  
A Giant Thornwaldt Cyst: Case Report  
İbrahim Ketenci, Mehmet Celaleddin Cihan, Murat Doğan, Ebru Akay, Yaşar Ünlü; Kayseri, Turkey

174  
A Rare Case: Suprathyroid Ectopic Thyroid Tissue  
Abdullah Dalığič, Harun Gür, Tolga Kandoğan; İzmir, Turkey

177  
Mosaic Isodicentric Y Chromosome in a Patient with Mixed Gonadal Dysgenesis  
Zerrin Yılmaz, Bilgin Yüksek, Özge Özer, Feride İlfet Şahin; Ankara, Adana, Turkey

181  
Superficial Acral Fibromyxoma  
Deniz Arık, Funda Canaz, Yakup Karabağlı; Eskişehir, Turkey

184  
A Surprising Cause of Back Pain and Difficulty Walking  
Mehmet Uçar, İrfan Koca, Mustafa İşık, Fatih Kocyiğit, Ayşe Bahşi; Yozgat, Gaziantep, Turkey

### Letters to the Editor
187  
Bullous Pemphigoid Mimicking Discoid Lupus Erythematosus: A Case Report  
Derya Uçmak, Zeynep Meltem Akkurt, Bilal Sula, Gurbet Acar, Ulaş Alabalı, Mustafa Anca; Diyarbakır, Turkey

190  
Complex Regional Pain Syndrome and Spontaneous Pain Following Simple Incision with Immobilization: A Case Report  
Hatice Sayan, Havva Talay Çalış, Serap Tomruk Sütbeyaz; Kayseri, Turkey
